Issue 38, October 2025

## Currently Trending

Our inbox has been busy with enquiries from all over the globe with a notable trend towards VeriTest® Shellfish and WaterChek Seawater Chemistry PT programmes. Our newest shipping destinations include Rwanda and Guyana both participating in WaterChek Potable Chemistry.

We also get several requests for new products and tests which we keep track of to assess feasibility of creating new programmes where possible. We welcome any new enquiries or questions related to our current programmes. Email us at [enquiries@global-proficiency.com](mailto:enquiries@global-proficiency.com)

## BeverageChek - New Fruit Juice Format

Our Apple Juice and Orange Juice Chemistry PT programmes, offered once per year in September has had some recent changes.

Two 500mL samples of each juice are offered to participating laboratories, all samples now contain sorbic acid and are pasteurised to improve ease of transport and shelf-life. The apple juice category includes dark and light apple juice samples, while the orange juice category features premium and pulpy orange juice samples.

Tests include:

- Ascorbic Acid (mg/100mL)
- Brix (°Brix)
- pH (pH units)
- Sorbic acid (mg/L)
- Titratable Acidity (g/100mL)
- Turbidity at Room Temp (NTU)

## Annual Registrations for 2026

Our annual registration packs are due to be sent out in the coming weeks. Look out for these to register for 2026 Proficiency Testing.

The process will be the same as previous years, with the information sent being tailored to your lab as follows:

- **Registration form** (excel file) - Registration form pre-populated with registrations from the previous year.
- **Price list** – Includes the programmes your laboratory has participated in during 2025.

Please send back the excel file regardless of whether you update your participation or not as this enables us to monitor response and avoids unnecessary follow up.
